The owner, Whitehead Institute for Biomedical Research, a corporation of the State of Delaware, having a place of business in Cambridge, Massachusetts, the assignee of the entire right, title, and interest in the above-identified application seeks to disclaim the terminal portion of the term of the patent to be granted on the application. This terminal disclaimer is binding on the grantee and its successors or assigns.

Further, pursuant to 37 C.F.R. § 1.321(c)(3), this terminal disclaimer is filed to obviate a double patenting rejection in the above-referenced patent application. Any patent granted on the above-referenced application or any resulting patent subject to reexamination proceedings shall be enforceable only for and during such period that said patent is commonly owned with the application or patent which formed the basis for the

rejection.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.
